

Dear Mr. Abrams, We want a little Library at Lindenwold School #4. Because we want to read new books we haven't read. We would like to put the little library at the playground. We need this library because we want to read new books. Also, we want to read outside during recess.

~~Our little library~~ little library should have all different kinds of books. Book like chapter books, animal books, different series, comic books and board books for the little kids. This little library will be for everyone and the best of it is that it will be free. Kids can take the books home and return but if they don't we hope that book smile can help refill our little library. We hope you can help us. Get a little library for our School.
Sincerely Nely Beltran-Salazar
